HAND CLEANER SPECIAL EX

Description

Special EX Premium Hand Cleaner has been developed for use in general manufacturing, engineering and other heavy industry where superior cleaning is required.

The EX4000 dispenser is especially designed for the Special EX Premium Hand Cleaner which is capable of removing medium to heavy industrial soiling such as lubricants, diesel, cement and rust etc.

The EX4000 contains a cartridge of 4 litre of product and when used correctly will give approximately 800 hand washes per cartridge. It is a very robust dispenser and offers a long service life. The unique feature of this system is that the strong pump is not fixed in the dispenser, but in the cartridge itself and therefore with every new cartridge a new pump supplied, which guarantees not only faultless use, but also ensures optimum hygiene.

Product Features:

- ✓ High standard of hygiene
- ✓ Capable of removing heavy soiling such as diesel, cement etc.

Unit Sizes:

Boxes of 3 x 4 litre (Cartridge)
