PENETRATING & DEWATERING FLUID

Description

Penetrating & Dewatering Fluid is a dewatering, penetrating and corrosion protection fluid. Penetrating & Dewatering Fluid is a pleasant smelling low viscosity turquoise liquid.

Applications

Penetrating & Dewatering Fluid is a high performance, multi application fluid that has excellent dewatering, anti corrosive and general lubricating properties.

Directions

If using as a penetrant or dewatering agent, apply to the surface, leave for a moment before continuing work.

If using as a protective coating, apply to surface and allow to dry to give a protective film. The product can last for 3-4 weeks outside and up to 6 months inside.
