

FISCHEMICALS ABERDEEN

OFFSHORE DEGREASER EF

Description

This product is designed for offshore and onshore use in the oil industry, but can, when diluted properly, be used for many applications onshore. Dilutions are only a guide as per CEFAS template of product and depend on many factors: temperature, type of contamination, degree of soiling, type of mud system being applied, and the type and area where crude oil is being drilled.

Dilutions

General Cleaning/High Pressure: 100 to 1

Heavy Duty Degreaser: 25-40 to 1

Moderate Degreaser: 10-25 to 1

If possible, the use of higher dilutions reduces the environmental impact of the product. This substance is not recommended for any industrial, professional or consumer use other than the dilutions use above.

OCNS HQ BAND: **GOLD**
