

FISCHEMICALS ABERDEEN

REEMOVE G

Description

Reemove G is one of a new breed of water based detergents recently developed by FIS Chemicals to satisfy the needs of offshore operators who now look more to environmental issues for gold category products.

Applications

It is an ideal product for use on the drill floor where contamination can occur. It uses a blend of surfactants and solvents which will remove stubborn dirt.

Directions

Reemove G is an excellent product that can be used by mop and bucket or through steam cleaner to totally remove stubborn baked on oil and grease on decks and bulkheads as well as deluge systems.

Bulkhead cleaning	5:1
