

FISCHEMICALS ABERDEEN

METHYL ETHYL KETONE

Description

Methyl ethyl ketone is a colourless, has a sharp, sweet odour reminiscent of butterscotch and acetone. It is soluble in water and is commonly used as an industrial solvent.

Applications

Used in processes involving varnishes, paint remover, a denaturing agent for denatured alcohol, glues, and as a cleaning agent. It has similar solvent properties to acetone but boils at a higher temperature and has a significantly slower evaporation rate.

Specification

Parameters	Min	Max	Units	Method
Density at 20°C	0.803	0.805	g/cm3	Paar Densimeter
Water		0.1 **	%wt	Karl Fischer
Refractive Index at 20°C	1.3760	1.3800		B&S Refractometer
Assay	99.5		%wt	GC
above parameters are routinely tested for Quality Assurance purposes. * From 18.3°C to 25.6°C ** at 20°C
