## PAINT AND SEAL STRIPPER GEL

### Description

Paint and Seal Stripper Gel is a gelled methylene chloride based paint and varnish stripper.

### Applications

Paint and Seal Stripper Gel is highly active paint stripper developed for application by brush or spray for fast, clean and efficient removal of paint and varnish from wood, metal, glass reinforced ceramics and most other surfaces. Off white in colour with a shelf life of 18 months and should be stored in a cool area away from heat sources.

### Directions

Apply neat to surface and allow 10 – 15 minutes to penetrate. Rubbing with a wire brush may be required. Paint and Seal Stripper Gel will only remove 2/3 layers of paint at a time.
