

FISCHEMICALS ABERDEEN

SD 100

Description

SD 100 is an extra heavy duty degreaser specially designed to replace conventional degreasers in a wide range of operations where the quick break down of grease and oil will enhance the performance of waste interceptors and reduce the total hydrocarbons being discharged to sewers.

Features

- ✓ Quick break and biodegradable
- ✓ Safe on all metals and good paint work
- ✓ Fast release of oil and grease preventing discharge to sewers
- ✓ Non-toxic, non abrasive, non flammable

Directions

SD 100 can be used neat for the removal of large build ups of oil and grease but can also be used at approx 3% concentration for use through a steam cleaner for normal cleaning

Spray or brush onto the surface to be cleaned. Allow 5 to 10 minutes penetration for the chemical to work and rinse thoroughly with high pressure.
