CALCIUM HYPOCHLORITE TABLETS, 300 GRAMS

Description

Tablet form.

A 300 gram tablet contains 195 grams of available Chlorine.

Applications

Calcium Hypochlorite is used in many purification and disinfection applications by eradicating germs and odours caused by the decomposition of organic matter.

- ◆ Destroys bacteria in minutes
- ◆ Sterilises equipment
- ◆ Destroys algae in water
- ◆ Disinfects all toilet areas

Directions

For the general cleaning and removal of stains on ceramic, china etc, dilute Calcium Hypochlorite up to 1000-1.

For drains, waste pipes, bins, urinals, showers and equipment, dilute Calcium Hypochlorite up to 500-1.

For sterilisation of water, please refer to the "Chlorination of Fresh Water" leaflet.
